Stage presence, confidence and storytelling

Sun 31 Jan — **Your first TED-style talk**
Deliver your own talk, live and recorded

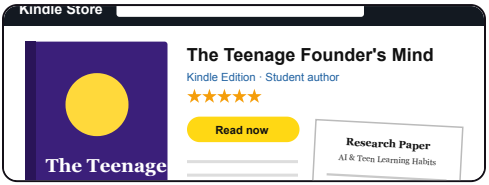

Weekend 7

Sat 6 Feb — **Digital Wellbeing & AI Ethics**
Healthy tech habits and AI's real risks

Sun 7 Feb — **AI Builder Challenge · jury pitch**
Pitch your AI solution to an expert jury

Inside the AI Lab.

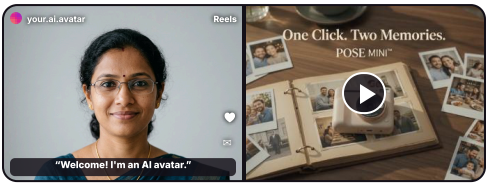

6 hands-on workshops, 3 knowledge sessions and a portfolio capstone. Students master 20+ AI tools and build 15+ real projects. ✓ No coding needed

AI Learning + Research Paper

Turn any chapter into a podcast, mind map, quiz or 3D model. Research and publish your own paper or book.

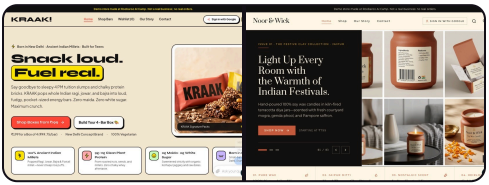

NotebookLM · YouLearn.AI · Gama · Moda

AI Creatives + Your Own Channel

Your talking AI avatar, product videos, short film, a 3-track album, then your own creator channel with its brand book.

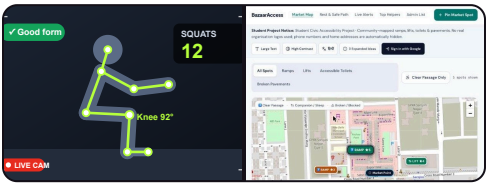

VEO 3 · Google Flow · HeyGen · Suno · Eleven Labs

Business in a Box

A D2C brand with packaging, ad campaign and live store, plus an NGO website and a pitch deck.

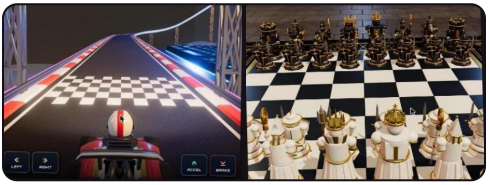

Lovable · replit · Google AI Studio · Luma Labs · Nanobanana

Digital Product Creation

Real apps people can use, like a camera app that counts your squats and a live map of accessible spots.

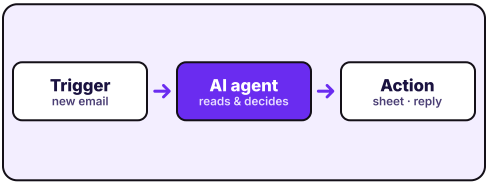

Google AI Studio · Antigravity · Vercel · Netlify

Fun & Learning Games

Build polished 3D games, build a game for learning, and put them live on the internet.

Google AI Studio · Antigravity · GitHub · Vercel · Netlify

AI Agents & Automation

A ready-made agent, an agent for a family task, and your own startup idea turned into an agent.

Make · ChatGPT

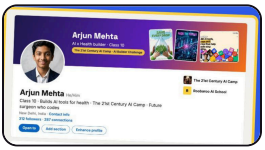

KNOWLEDGE SESSIONS — AI Foundations · Prompt Engineering · Critical Thinking in the Age of AI

CAPSTONE · BUILD YOUR OWN PORTFOLIO

Walk out with a professional online presence

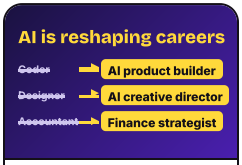

- Portfolio website
- Resume
- LinkedIn profile

Beyond AI: skills for life.

The tools will keep changing. Knowing where you are headed, speaking with confidence and staying well will not.

CAREER LAB · 4 HOURS

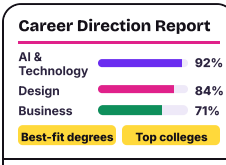

Find the right career, course & college

How AI is reshaping careers, colleges, jobs and business, with clear examples

Personalised personality report and resource book

Career direction report with unique college and degree insights

Your own AI career companion, personal podcast and career presentation

VOICE LAB · 4 HOURS

Master efficient, confident communication

Build stage presence and let go of fear

Live activities to find your voice

Learn TED-style storytelling and how to present yourself with confidence

Worksheets and resources to continue your TED journey

DIGITAL WELLBEING & AI ETHICS · 2 HOURS

Wellbeing & Ethics in the Age of AI

3x Author, 2x TEDx Speaker, 4x Udemy Course Creator

BITS Pilani Global 30 under 30

Manager on EY's Global Innovation Team

Spot AI's real risks like bias, misinformation, privacy, misjudgment & over-reliance

Reorganise your digital life with tools for focus, productivity & healthy boundaries

E-books, courses & a dedicated resource site to continue the journey

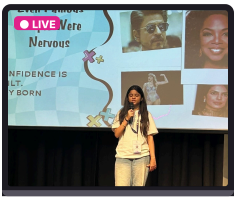

Speak up. Build big.

Every student presents twice: once with their own TED-style talk, once pitching their AI solution to a jury.

Your first TED-style talk, delivered live

- Pick your own story and deliver a talk, live from your laptop
- Get the recording and snapshots of your talk
- Recognition in association with The Voice Masters Club

RECOGNITION
in association with VOICE MASTERS CLUB

The AI Builder Challenge

Your idea. Every tool you've learned. One shot in front of a jury.

- Build a solution to your own idea with every AI tool from the batch
- Create its website, social media presence and presentation
- Pitch live to an expert jury panel

Business Case Competition

June 2027
AI for Social Good Challenge

May – Jul
Celonis online internship

Every month
Expert masterclass

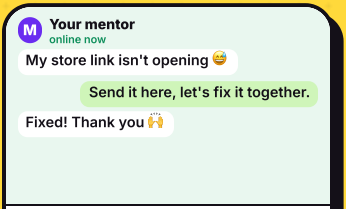

Online, but never passive.

Parents worry that students join online courses, sit through them and learn nothing. So we designed this program around what your child actually builds and learns.

25 seats only

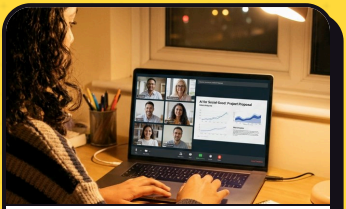

We keep the batch small so that we can pay attention to every student and manage individual queries throughout the program.

Personal attention, from start to finish

A dedicated mentor

Every student is assigned a dedicated mentor, who helps with any query throughout the program.

Personal check-ins

Mentors check in with students and give personalised help wherever they are stuck.

A dashboard for parents

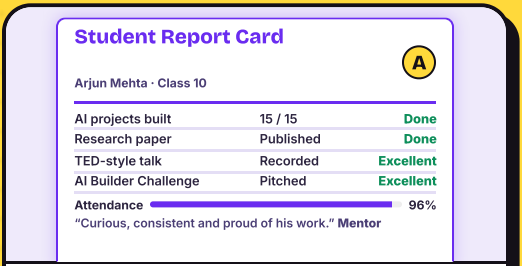

The program runs on our own learning management system. Parents can see their child's progress and submissions.

We care about outcomes more than anything else

✓ Research paper	✓ Your own book	✓ E-commerce store
✓ Portfolio website	✓ Digital product	✓ Product campaign
✓ Product packaging	✓ AI agent	✓ 3D game
✓ Learning game	✓ Short film	✓ Talking AI avatar
✓ Music album	✓ NGO website	✓ Pitch deck

Every project gets built

Each student creates all the projects, and we follow up with them to make sure it happens.

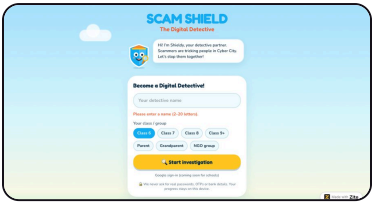

A student report card

At the end, you receive a report card with everything your child has built, as ready proof.

Real projects. Built by students.

Scan the QR to open or watch each project.

SHIVAANSH · LEARNING GAME

Scam Shield: a game that teaches you to spot online scams

Players become digital detectives and learn to catch scams before they fall for them.

▶ PLAY

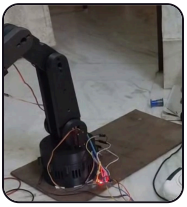

AMBUJ · DPS PATNA

Built his own 3D-printed robotic arm

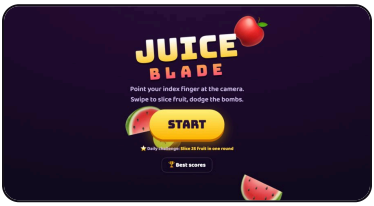

Started at the camp with an AI-launched product. Won first prize at the Startup Challenge. Now building a robotic arm with our mentor.

Team won INR 50,000

▶ WATCH

SHIVAANSH · CAMERA GAME

Juice Blade: play with your finger on camera

Point your finger at the webcam to slice fruit and dodge bombs. No controller needed.

▶ PLAY

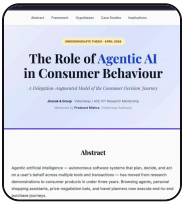

STUDENTS · RESEARCH & PUBLISHING

Research papers and articles, published online

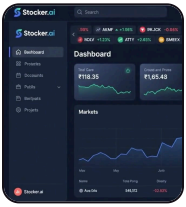

Original work under their own names, with a permanent link to show colleges.

▶ OPEN

TEAM AI · STUDENT STARTUP

Stocker.ai: an AI stock-research app

Website, ad and pitch deck, pitched to a jury.

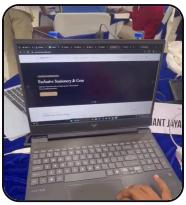

Won INR 50,000

▶ WATCH

And they keep building.

Stores, startups, portfolios and apps. Scan the QR to open or watch each project.

RISHANT · CLASS 11, SUNBEAM SCHOOL, VARANASI

Built an online store for his father's business

A real website for a real family business, built with AI at the camp.

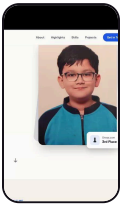

▶ WATCH

▶ WATCH

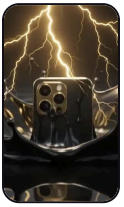

GRADE 8 STUDENTS

Portfolio websites, games & a phone video ad

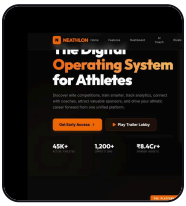

Built by Class 8 students at 13, with no coding background.

TEAM NEON SPARK · STUDENT STARTUP

Neathlon: a sports-tech app for athletes

AI coach, training & nutrition plans, website, trailer and social media, pitched on stage.

▶ WATCH

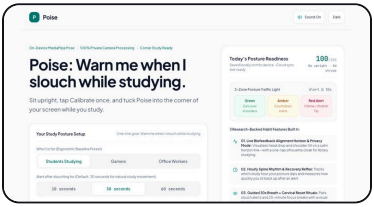

▶ PLAY

ARJUN · PORTFOLIO WEBSITE

A portfolio website you can play with

Grab and throw his photo, his posters and the letters of his name.

ARJUN · POSTURE APP

Poise: warns you when you slouch

Uses the camera to watch your posture while you study, and nudges you to sit up.

▶ OPEN

Admission process

1

Apply

Share the student's basic details with us on WhatsApp.

2

A short, friendly chat

Our team connects with the student for a short conversation.

3

Confirm your seat

We share the final confirmation, then you pay to reserve the seat.

Parents & students love it.

> Kids truly enjoyed it. He's learnt, he's enjoyed, and he's ready to take the next step in finding out what he loves.

Kaniz Sayed (Digital creator, 328K+ followers)
Parent, Class 10 · The Shri Ram School, Gurgaon

> These six days were a great experience where I literally did a TED talk, made my own website, a carousel and, most importantly, a startup pitch.

Riti Ahuja
Student, Class 9 · Goodley Public School

> It taught me how to build portfolios, make a startup, pitch to investors and talk confidently.

Avidaan Gupta
Student, Class 9 · DPS RK Puram

> His curiosity was nurtured. He was anti-AI, but now he's pro-AI and loves to work on it.

Aashima Sood
Parent, Class 8 · The Lawrence School, Sanawar

MEET THE FOUNDER

Bhaskar Singhania
